

JASLIN VARGHESE

Computer Science & Cyber Security Graduate

jaslinvp2004@gmail.com | +91 96059 83265 | Malappuram, Kerala | linkedin.com/in/jaslin-varghese | github.com/Jaslin00

PROFESSIONAL SUMMARY

Computer Science and Engineering (Cyber Security) graduate with a strong foundation in software development, cybersecurity, and computer science fundamentals. Hands-on experience through academic projects and practical learning in developing applications and working with cybersecurity tools such as Wireshark, Autopsy, Burp Suite, Recon-ng, and Hydra. Proficient in Python, C, HTML, CSS, and Linux, with solid knowledge of Data Structures, Database Management Systems, Operating Systems, and Computer Networks. Passionate about building secure, efficient solutions, continuously learning emerging technologies, and contributing effectively to collaborative teams.

TECHNICAL SKILLS

Security: Wireshark, Nmap, Burp Suite, Hydra, Autopsy, Recon-ng, Kali Linux

Frontend: HTML, CSS

Core CS Concepts: Data Structures, DBMS, Operating Systems

Programming Languages: Python, C, Java (basic)

Dev Tools: VS Code, Linux

AI Tools: ChatGPT, Gemini, Cursor AI, Antigravity

Soft Skills: Team Management, Communication, Collaboration, Adaptability, Organization Skills, Leadership

WORK EXPERIENCE

Cyber Security Intern | Elevate Labs

May 2025 – Jun 2025 | Remote

- Conducted network reconnaissance using Nmap & Wireshark; identified open ports and anomalous traffic in simulated environments
- Designed phishing simulations targeting mock user groups; analysed click-through rates for awareness training reports
- Performed steganography analysis on image files and practised password auditing using Hydra in controlled lab environments

Flutter Developer Intern | METALOOP

Jun 2025 | Ernakulam, Kerala

- Built UI components and practised state management patterns for a mobile application prototype
- Participated in agile standups and sprint planning; collaborated with cross-functional team on feature delivery

Campus Co-Lead | MuLearn

Feb 2024 – Jan 2025 | University College of Engineering

- Led MuLearn chapter for 100+ students; coordinated 10+ technical events and workshops across the academic year
- Mentored junior members in skill pathways; grew active chapter participation by 40% within 8 months

PROJECTS

AI-Powered Bug Triaging System | Python, FastAPI, DistilBERT, PyTorch, PostgreSQL, WebSockets, GitHub API

- Automated bug classification & developer assignment using Zero-Shot NLP; fetched live issues from GitHub repositories in real time
- Classified bug severity via DistilBERT transformer model; assigned issues to developers based on skills, experience & workload

EventHub — College Event Management System | Python, HTML, CSS, JavaScript, PostgreSQL

- Built a centralised portal for students to view events, register for workshops, and track team standings with live scoreboard updates
- Implemented role-based access with an organiser dashboard for event creation & participant management; secure login with unique credential enforcement

EDUCATION

B.Tech — Computer Science & Cyber Security

Nov 2022 – May 2026

University College of Engineering, Thodupuzha, Kerala

Higher Secondary — Science

Aug 2020 – Apr 2022

CHSS, Pothukal, Kerala

CERTIFICATIONS

- Cybersecurity Job Simulation — Forage, Mastercard (2025)
- Introduction to Critical Infrastructure Protection — OPSWAT (2025)
- TCS iON Career Edge — Young Professional — TCS iON (2025)
